Professional Summary

Results-driven Power BI Developer with 3+ years of experience in building interactive dashboards and data models for financial reporting. Skilled in Power BI, DAX, Power Query, SQL, and Power Automate, with strong expertise in ETL and performance optimization. Experienced in working with ClickHouse, MySQL, and SQL Server (SSMS), and implementing forecasting and predictive analytics.

Technologies

Business Intelligence: Power BI, Power BI Service, DAX, Power Query

Databases: SQL, SQL Server (SSMS), MySQL, ClickHouse

Data Engineering: Data Modeling, ETL Processes, Data Integration.

Automation & Tools: Power Automate, Selenium Python

Programming: Python (Basic)

Education

SSM Institute of Engineering and Technology, B.E Civil Engineering 2014 – 2018

- GPA: 6.67/10.0

Experience

Power BI Developer, Cholamandalam Investment and Finance Company Limited June 2023 – Present
Chennai

- Designed and developed interactive Power BI dashboards using DAX and Power Query to deliver actionable insights for financial reporting
- Built and maintained ETL processes to transform raw data into structured datasets for analytics and reporting
- Developed scalable data models and optimized performance through efficient design and SQL query tuning
- Worked with large-scale datasets from ClickHouse, MySQL, and SQL Server (SSMS)
- Created advanced DAX measures, KPIs, and trend analysis dashboards to support business decision-making
- Applied Row-Level Security (RLS) and Column-Level Security (CLS) for secure and role-based data access
- Collaborated with finance and business stakeholders to gather requirements and deliver reporting solutions
- Automated reporting workflows using Power Automate, reducing manual effort and improving efficiency

Projects

LSD MIS Dashboard

- Developed Power BI dashboard for loan tracking using DAX and Power Query

TAT MIS Dashboard

- Built KPI dashboard to monitor turnaround time and performance

ED MIS Dashboard

- Created reports for early delinquency analysis using SQL and data modeling

LOS & LMS Workflow Automation

- Automated LOS and LMS workflows using Power Automate to streamline business processes and reduce manual effort
